IWI US High Speed Gear TACO Double-Decker Leg Rig, Belt-Mounted Double-Decker TACO Mag Pouch, and Cobra 1.75-Inch Rigger's Belt with Velcro (Gun Belt with Cobra Buckle) Now Available!

David Crane

The following is an IWI US press release:

August 4, 2015

Harrisburg, Pa. (Aug. 2015) – IWI US, Inc., a subsidiary of Israel Weapon Industries (IWI) Ltd., announces that High Speed Gear accessories are now available for purchase on its website.

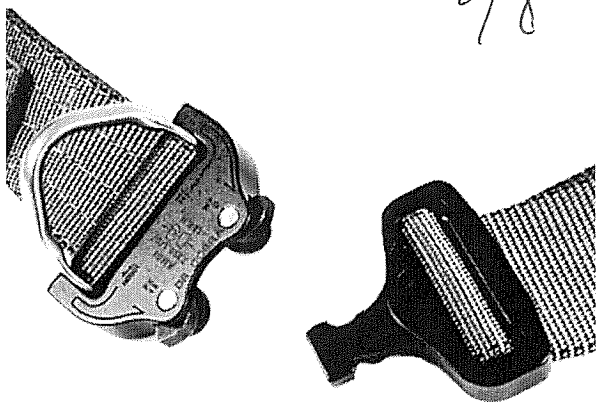

"Let's face it, when things go south or you hear a bump in the night, you'll need your gear and you'll need it quickly. High Speed Gear's accessories let operators quickly access their gun, spare magazines, tactical knife and gear when they need it, without any hassle, fumbling or fuss. Frankly, we're proud to carry their products on our site and we know you'll like them," said Michael Kassnar, IWI US vp of sales and marketing.

One of the accessories offered is High Speed Gear's Double Decker Leg Rig. It allows the operator to deploy TAVOR, Galil, UZI or Jericho magazines, as well as a tactical knife or gear, silently and easily when needed. It's also compact and low profile making it perfect for any mission. MSRP $150.

Another High Speed Gear accessory carried on the IWI US website is the Belt Mounted Double Decker TACO [mag pouch]. The TACO allows operators to carry spare TAVOR, Galil, UZI or Jericho magazines and can also be used to carry certain sized radios, flash bang and smoke grenades, as well as multi-tools and flashlights. The TACO securely stores gear and allows it to be quickly, silently and easily deployed. The pouches are made out of Cordura, an injection molded polymer and shock cord. MSRP $44.

IWI US also carries the Cobra 1.75" Riggers Belt with Velcro. The belt comes with a quick release COBRA buckle and is constructed from two layers of 1.74" webbing sewn together with five rows of bonded 138 nylon thread. To add additional rigidity and stiffness, the layers are laminated with industrial strength adhesive before sewing. Loop Velcro is sewn on the inside to provide stability for belt mounted holsters and pouches. The belt is designed to be used with the Belt Mount Pouch System. MSRP $65.
