

EXPLOSIVE ORDNANCE DISPOSAL (EOD) VEHICLES

With more than 30 years experience in manufacturing and supplying high quality special purpose vehicles and equipment to professional and security organizations worldwide, we have developed unique capabilities to manufacture Explosive Ordnance Disposal (**EOD**) and Improvised Explosive Device Disposal (**IEDD**) vehicles, of the highest quality, professional after sales service and training by accredited experts in their field.

B.A.T's EOD & IEDD Vehicles include a choice of very specialized equipment adopted by many Military and Law Enforcement units globally. It is a totally equipped highly professional tool, allowing its users to perform almost all types of **EOD & IEDD** intervention missions. It is flexible, fast and easily adjustable to fit any type of security operations, including anti-terrorism and Homeland Security. It provides a fast and convenient way of rapidly deploying an **EOD** team, complete with necessary equipment to the scene of an incident.

In addition to the state-of-the-art **EOD** robot, the vehicle is equipped with conventional bomb disposal equipment, disruptors, bomb suits, x-ray inspection equipment, searching devices, hazardous material response equipment, demolition tools, mine detectors, bomb locators, various cartridges and various other specialized **EOD/IEDD** tools.

All vehicles are internally customized so that all equipment required is safely and easily stowed in its own location according to operational requirements. The whole system is designed for convenient accessibility enabling the team to respond rapidly.

Our **IEDD/EOD** vehicles are deployed by military and police bomb disposal units round the globe, as well as by airport security authorities. Our high quality products enjoy a worldwide reputation for excellence.

We can configure and construct vehicles to deploy all of the equipment categories according to the customer request. Training courses are also provided, in both the use of equipment and in operational procedures.

B.A.T has experience in building a full range of bomb disposal vehicles
According to customers' specification based on a variety of standard chassis, such as GM Savana, MB Vans, GM Sierra, GM Silverado, Ford 550, International Navistar and more...

Complete "turn key" packages of vehicles and all equipment can be supplied allowing an **EOD/IEDD** team to become operational immediately.

Various vehicle designs available, including "walk-through" (Van) and "walk-around (HD pickup) design. Bomb robot ramps or hydraulic lift are available to allow for quick and easy bomb robot deployment.

EOD / IEDD - Special Operations Equipment, SWAT & Police Equipment

Rapid Coil Product Family
A range of products aiding professionals who need electrical wires for electrical operations for various types of operational work, especially the military who carry a lot of equipment in war zones
Non-magnetic, No-rust

Rapid Coil Complementary Products
These Complementary products allows a wider range of operational usages for the Rapid Coil product family
Non-magnetic, No-rust

Detonator Protective Sleeve Models
Purpose-designed protective sleeve for manually handling an explosive charge
Non-magnetic, No-rust

Pulley Product Family
A range of products for the remote disposal/neutralization of explosive devices
Non-magnetic, No-rust

SL-030 Compact EOD/IEDD Sansolo Kit

SL-030A Improved Compact EOD/IEDD Sansolo Kit

SL-031 A Pulley for Charge Handling

SL-028 Lightweight Pulleys
Non-magnetic, No-rust

SL-228 Rigging Line Double Pulley
Non-magnetic, No-rust

SL-030P Sansolo Leg Pouch EOD/IEDD kit

SL-030PM Extended Sansolo Leg Pouch EOD/IEDD kit

SL-030B Sansolo Hook & line EOD/IEDD Case kit

SL-030ML Mini Pouch - Long Range

SL-030MS Mini Pouch - Short Range

SL-066 Double suspension element

SL-067 Anchoring Line

SL-039 Backhand Mini Toolkit

SL-032, SL032K, SL-032KK Folding Anchor
Non-magnetic, No-rust

SL-038 A Protected Towing Hook
Non-magnetic, No-rust

SL-143 Miniature Prodder Kit

SL-035-036 Fast Pulley
Non-magnetic, No-rust

SL-037 Protected Disconnecting Knife

SL-041 Multi Purpose Prodder, **SL-043** Miniature Prodder, **SL-044** Short Prodder, **SL-045** Removal Spoon and Prodder, **SL-046** Spike
Non-magnetic, No-rust

SL-081-082-083-085 EOD Knives

SL-243 Safety Pin Kit
Non-magnetic, No-rust

SL-276 Trip Wire Detection Antenna

SL-069 Trip Wire Marking Ribbon

SL-090 Container for Batteries and Small Sensitive Elements
