processor to capture incredible details from distance. Crystal clear full high definition (FHD) video quality at 150° field-of-view. Low light compensation ensures high video quality even for driving in the evening. Simultaneous video recording and photo capture at 16M pixels

- Smart and Convenient Recording/Monitoring: Automatic motion/crash/vibration detection and recording with G sensor, monitoring while parking, automatic display off for energy saving, and automatic device on/off with engine on/off (when no power detected)
- User-Friendly with simple to use buttons and multiple languages. Includes 16GB TF card in every package for approx. 2 hours 1080p video recording storage (even longer with lower resolutions). Endless recording with loop recording feature which automatically manages storage, overwriting the oldest unprotected files
